

About Us

Company Overview

Wellsite Geologists Inc. was incorporated in 1988 as Running Horse Resources Inc., renamed in 2008 to reflect the nature of our occupation. The founder, Dennis Labrecque has 43 years experience in the Oil & Gas Industry, 35 years as a Geologist, 27 in the field as a Wellsite Geologist, 10 of those years including Engineering Supervision, and the last 8 years as CEO in Calgary looking after business.

Purpose:

To provide Oil and Gas Exploration companies with a reliable and experienced wellsite supervision team. Each team member has been tutored and mentored to provide them with strong scientific, technical, leadership and professional skills.

Services:

Wellsite Supervision & Gas Detection for vertical & horizontal wells

Two man Horizontal wellsite teams

Petrographic Sample Logging & Core Analysis (Core Storage Center or in-house)

Operations Management for multi-well projects

Corporate Professional Certification:

APEGGA Permit to Practice in Alberta #P07053

P.Geol. NAPEGG Professional Geologist Member # L1388

CSPG Member # 04940

Professional Compliance with APEGGA, APEGS, NAPEGG:

Wellsite Geologists Inc. employs Wellsite Supervisors which fall under 3 categories

1. Geologists with accreditation from a recognized University (Degree type posted)

2. Technicians with accreditation from a recognized Technical College (Technical Certification posted)

3. Wellsiters who have come in with years of wellsite experience (posted without professional certification or designation implied)

Each individual working for Wellsite Geologists Inc. has been trained specifically for doing Wellsite supervision or has been hired based on their existing supervisory experience. Each Consultant is carefully monitored and supervised and their Wellsite Reports professionally edited. To maintain compliance with APEGGA, APEGS, and NAPEGG, our policy is to hire only personnel with professional degrees or technical certification from accredited institutions who can qualify for P.Geol. or P.Tech.. To be fair, un-certified individuals already working with Wellsite Geologists Inc. are "Grandfathered" in because of their extensive past experience and are in compliance by submitting their work and maintaining contact with a professional in the office.
